

Gafford Chapel Water Supply Corporation

Addition to Policy Guidelines

Effective July 1, 2021

Requirements for second temporary structure / dwelling at one meter connection (i.e. camper, trailer, tiny house or relative's house)

1. Annual inspection and registration fee of \$100.
2. Meter charge as set by board of GCWSC. This is minimum charge with no water use plus applicable TCEQ assessment fees added to monthly bill. (Current rate is \$21.11 monthly)
3. If inspection is necessary the cost will be passed on to the customer at the discretion of the water system's operator. (Current charge is \$45)
4. Connections made with a water hose must have a hose bib vacuum breaker or check valve. There will be a limit of one additional structure/ temporary dwelling per meter.
5. Registration may be renewed for a second year. If necessary after two years an additional membership and meter must be purchased at the current rate at the time of purchase.
6. The second structure or temporary dwelling and its septic system must be approved by the County Fire Marshal.
7. Customers in violation of this policy face the possibility of having their membership revoked and loss of their water meter.
